PHILADELPHIA

PREFACE.

THIS volume is devoted entirely to two distinct Indexes. The first contains the name of every town and is arranged alphabetically, the name of its state following the name of each town. In the second, the towns are arranged under their several states. In both Indexes the author's name is arranged alphabetically, under the name of the town. The references are to the numbers of the book-titles in the work proper, and in no case do they refer to the pages of the volumes. Much care has been taken to ensure accuracy, and while the compiler is well aware that there are errors in the work, they were not caused by carelessness. Only one who has undertaken such a work can have any conception of the great amount of labor entailed. As it was impossible to compare all the titles with the books themselves, dependence had in some cases to be placed in the works of previous Bibliographers, and they also were sometimes incorrect in their titles. That the work will be of some use to the librarian, the bookseller, the historian and the collecter, is the earnest wish of the compiler.

T. L. BRADFORD.

PHILA., MAY 10, 1910.
